

Abeesh S

QA Engineer | Automation Testing

+91 9047722626 | abeeshsengottuvel12@gmail.com | [LinkedIn](#) | [Portfolio](#) | Coimbatore, India

PROFESSIONAL SUMMARY

QA Engineer with nearly 2 years of experience automating healthcare insurance applications. Proven expertise in building and maintaining C#, NUnit, and Selenium frameworks, successfully reducing regression testing cycles by 40% per sprint. Adept at collaborating with cross-functional teams throughout the SDLC, from sprint planning to CI/CD integration, ensuring the delivery of robust and reliable software.

EXPERIENCE

QA Engineer

Sep 2024 – Present

Cognizant · Client: Humana Inc. (Healthcare Insurance)

- Designed and automated 110+ end-to-end test cases across UI (Selenium WebDriver) and API (RestSharp) layers, successfully cutting regression testing time by 40% per sprint.
- Built a reusable C# and NUnit framework utilizing a modular Page Object Model (POM) architecture, reducing script maintenance effort by 30% and significantly accelerating the onboarding of new test scenarios.
- Collaborated with developers and Business Analysts during Agile sprint planning to identify and resolve edge cases early, bringing production defect leakage down by 15%.
- Integrated automated test suites into Jenkins CI/CD pipelines for nightly regression runs, ensuring the team received real-time build quality feedback without manual intervention.
- Managed test execution cycles in qTest, maintaining full traceability from requirements to results to support strict healthcare compliance workflows.
- Conducted root cause analysis using VS Code and Azure DevOps in partnership with developers, consistently shortening defect resolution times across sprints.

TECHNICAL SKILLS

Languages	C#, Java, C
Automation	Selenium WebDriver, RestSharp, Postman
Frameworks	NUnit, Page Object Model (POM), Data-Driven Testing
CI/CD	Azure DevOps
API Testing	REST API, Rest Sharp, Postman, JSON Schema Validation
Test Management	QTest
Tools	Azure, VS Code, Eclipse, Git, NuGet, Maven
Testing Types	Functional, Regression, Integration, API, Manual

EDUCATION

B.E. in Electronics & Communication Engineering

Graduated: 2023

Sri Ramakrishna Engineering College, Coimbatore · CGPA: 7.56 / 10

CERTIFICATIONS

- Selenium WebDriver with C# — Udemy (Completed)
- Microsoft Azure Fundamentals (AZ-900) — In Progress
